RedTeam Flex

+ Acumatica Cloud ERP

RedTeam Flex connects to Acumatica's ERP system to provide your construction teams with the latest financial information for project management. Streamline contracting and disbursement authorization workflows, and eliminate duplicate work.

RedTeam Flex's "event-driven" accounting integration requires no manual interventions to link data entities and transactions, which eliminates workflow latency and ensures real-time access to financial and project information.

Supported Transaction Types

- ✓ Projects
- ✓ Vendors
- ✓ Invoicing
- ✓ Accounts Payable
- ✓ Accounts Receivable
- ✓ Job Costing
